Abstract:- The Sadguru cloth store website presents an online display of an order cut off time and an associated delivery window for particulars named by the client. The website accepts the client's submission of a purchase order for the item in response to a time of submission being before the order cut off time. The online cloth store doesn't settle with a credit supplier of the client until the item named by the client is picked from force but before it's delivered. thus, the client can go online and make changes to the order.

III. OBJECTIVES

- The main ideal of our design is to make effective website of the Cloth store named “Sadguru Cloth Store Website” which is stoner friendly and at the same time important.
- It contains different types of garments in the store.
- To produce software which manages the deals exertion done in a request, maintaining the item details, maintaining the records of the deals.
- We'll make it stoner friendly and fluently accessible.

IV. METHODOLOGY

The „ Sadguru Cloth Store“ website identifies and monitors particulars in the shelves and automatically alert retailers when it's time to restock. The homemade process involving collecting data will be replaced by robotization and client can get data in real time with no homemade intervention and garbling. Also Sadguru website take of the client satisfaction also accept the new requirment of the new client and word on that demand and complete work within time. These website give delevry to the client within time as per the client taking. There's important part in day to day life by using these website client knowing knowledge about the new fasion of the colorful order of the cloth. The Sadguru Website also take care of the client satisfaction is as important as their products and services, helped this establishment garner a vast base of guests which continues grow by the day. Also Provide Some Feature By the Sadguru Cloth Store Website:-

- Smallest price
- Customized collection
- Prompt delivery
- Easy payment modes
- Moral business practices
- Wide network
- Quick order processing

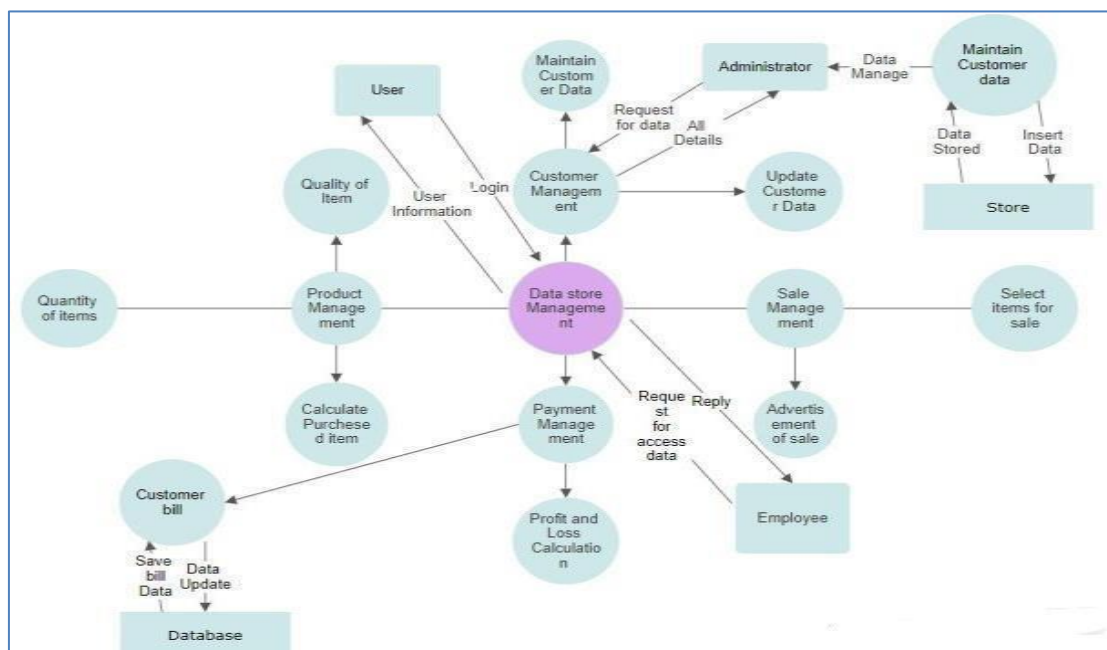

Fig. 1: DFD Level 2

V. PROJECT SCOPE

Our design is aimed at the robotization of business processes, i.e. we've tried

- To give stoner friendly graphical stoner interface(GUI) grounded.
- System should maintain all the record and sale, and should induce the needed reports and information when needed.
- Some operation areas like updation of stock and saving of last purchase etc. aren't enforced in the design it facilitates to buyer to go through the product of the store and choose as per his want to buy the product.
- To computerize colorful processes of the operation system of apparel stores.
- It isn't necessary to produce the overload in a computer system, but we can do it directly. publish it, which saves us time.
- lping workers understand the sweats made in their separate areas of work.
- Use coffers efficiently by adding their productivity through robotization purposes. Meet stoner conditions to allow druggies and drivers to be fluently understood. It must be easy to use, Have an exemplary and scalable database..

VI. CONCLUSION

Eventually, in this apparel store, we've a system. The stoner chooses the clothes staff picks the cloth and the admin takes them calculated, and the choice of clothes is handed to him. Hence the system is working OK and giving the clothes working a smooth and classified edge. System should maintain all the record and sale, and should induce the needed reports and information when needed.
